### 1. GENQUE

#### Automatic Item Generator

Reimagine how assessments are built with GenQue, a patent-protected AI engine that generates high-quality, data-rich questions in seconds.

Designed to reduce development time by up to 70%, GenQue supports multiple question formats and integrates real-time feedback analysis to ensure every item is:

- Accurate
- Relevant
- Psychometrically sound

#### Key Features

- AI-powered automatic question generation
- Domain-specific intelligence

- Dynamic sequencing capabilities
- Multi-format assessment support
- Real-time feedback analysis
- High-quality item validation

Unlike generic content tools, GenQue uses domain-specific AI and dynamic sequencing to deliver tailored, context-aware items that meet the highest testing standards.

#### Benefits

- Faster assessment development
  - Improved testing quality
  - Enhanced efficiency
  - Reduced manual effort
  - Smarter test creation workflows
- 

## 2. CROWN

### Credential Management System

Safeguard your organization's credibility with Crown, a secure and scalable platform for end-to-end credential management.

From exam result tracking to digital certification and third-party verification, Crown ensures every credential is:

- Authentic
- Compliant
- Secure
- Easy to manage

#### Key Features

- Exam result tracking
- Digital certification management
- Third-party credential verification
- Integration-ready APIs
- Real-time performance insights
- Fraud prevention capabilities

Built with integration-ready APIs and real-time analytics, Crown streamlines operations while protecting against credential fraud.

## Benefits

- Improved credential transparency
  - Enhanced operational efficiency
  - Stronger compliance management
  - Secure digital verification
  - Increased trust and reliability
- 

## 3. MERIT

### Competency Model

Transform how your organization measures and develops talent with Merit, an intelligent competency model designed to automate assessments and deliver instant, actionable insights.

Merit helps organizations:

- Identify skill strengths
- Uncover competency gaps
- Map personalized development pathways
- Improve workforce capabilities

### Key Features

- Automated competency assessments
- Real-time performance insights
- Personalized learning pathways
- Skill gap analysis
- Development tracking
- Training alignment capabilities

Unlike traditional tools, Merit goes beyond performance evaluation by directly connecting assessment outcomes to training and growth initiatives.

## Benefits

- Continuous learning enablement
  - Strategic workforce development
  - Improved employee performance
  - Enhanced organizational agility
  - Data-driven talent management
-

## 4. VAULT

### Item Bank

Simplify and strengthen your assessment ecosystem with Vault, a centralized platform for managing, reviewing, and improving exam content at scale.

Vault helps organizations:

- Eliminate content duplication
- Maintain assessment consistency
- Improve quality assurance
- Streamline collaboration workflows

### Key Features

- Centralized item repository
- Built-in version control
- Collaborative review workflows
- Item performance tracking
- Real-time analytics
- Continuous validation tools

More than just a storage system, Vault provides analytics-driven insights that support continuous item improvement and validation.

### Benefits

- Efficient content management
  - Reliable assessment delivery
  - Improved transparency
  - Scalable exam administration
  - Future-ready assessment infrastructure
- 

## 5. WESPEAK

### Discussion Board

Transform disconnected teams into thriving collaborative communities with WeSpeak, a purpose-built platform for dialogue, peer learning, and knowledge sharing.

WeSpeak creates a structured digital environment where:

- Ideas are exchanged freely
- Knowledge is shared effectively

- Insights are captured systematically
- Engagement is strengthened across teams

#### Key Features

- Structured discussion forums
- Peer learning support
- Collaboration tools
- Built-in moderation controls
- Engagement analytics
- Community management capabilities

Unlike generic discussion forums, WeSpeak is designed specifically for mission-driven organizations seeking measurable collaboration outcomes.

#### Benefits

- Stronger team collaboration
  - Improved organizational communication
  - Enhanced knowledge sharing
  - Increased stakeholder engagement
  - Faster innovation and learning
- 

## 6. CENSUS

### Survey Platform

Empower your organization to gather meaningful feedback and transform responses into actionable insights with Census, a unified survey platform.

Census enables organizations to:

- Design surveys in multiple formats
- Automate workflows
- Visualize data in real time
- Drive informed decision-making

#### Key Features

- Multi-format survey design
- Workflow automation
- Interactive dashboards
- Real-time reporting and analytics

- Centralized response management
- Advanced data visualization tools

Unlike traditional survey tools, Census combines powerful survey design capabilities with advanced analytics to support measurable business impact.

#### Benefits

- Faster feedback collection
  - Improved decision-making
  - Enhanced reporting accuracy
  - Actionable organizational insights
  - Scalable survey management solutions
- 

#### INDUSTRIES & USE CASES

Our platforms are designed to support organizations across:

- Government
  - Nonprofit Organizations
  - Educational Institutions
  - Professional Associations
  - Enterprises
  - Certification Bodies
- 

#### OUR COMMITMENT

We continue to innovate and deliver technology-driven solutions that help organizations:

- Operate more efficiently
- Improve assessment and credentialing systems
- Empower collaboration and learning
- Make data-informed decisions
- Scale with confidence and security
